Assignment 2 · Regression analysis report

Due 14 November 2026 at 17:00.

Submit a 1,500 to 2,000 word report as a PDF through the course portal.

You must include a scatter plot with a fitted regression line.

Use APA 7 referencing with at least five academic sources.

Late submissions lose 5% of the available marks per day.

Marking rubric

Analysis and interpretation (40%): correct model equation and a plain-language interpretation of the slope and intercept.

Use of evidence (25%): residual plot discussed and assumptions checked.

Communication (20%): clear structure and labelled figures.

Referencing (15%): consistent APA 7 style.

Deliverables: the report PDF and the code used for the analysis.
